- **Enjoy extra legroom with the state-of-the-art Airbus A321LR, featuring a seat pitch of up to 32 inches (81 cm)***

Osaka, August 29, 2024 - Peach Aviation Limited (“Peach”; Representative Director and CEO: Kazunari Ohashi) announced today that the Osaka (Kansai) - Singapore route will begin service on Wednesday, December 4. Tickets go on sale today.

Press conference announcing the launch of the service in Singapore

The Osaka (Kansai) - Singapore route is Peach’s second medium-haul international route following Osaka (Kansai) - Bangkok (Suvarnabhumi). One-way fares start at JPY 13,690, and flights will be operated daily (seven times a week) on Airbus’ state-of-the-art A321LR aircraft.

The A321LR used on this route offers more cabin space than the Airbus A320 used by Peach on short-haul routes, with a maximum seat pitch of 32 inches (approx. 81 cm)*, which is equivalent to that of full-service airlines. In addition, the seats are equipped with USB ports for charging smartphones and tablets, so passengers can spend the six-and-a-half-hour flight between Osaka (Kansai) and Singapore comfortably and leisurely without worrying about remaining battery power.

Regarding operation of the new route, CEO Ohashi commented, “We are very pleased to launch the Osaka - Singapore route, our second medium-haul international route and the first for a Japanese airline in 14 years. The state-of-the-art A321LR aircraft with ample seating space will be deployed to ensure a comfortable flight to Singapore. We hope that with our affordable fares, you will visit the everlasting summer country of Singapore again and again to experience the heart-warming and inspiring experience of the new cityscape represented by Marina Bay and the exotic atmosphere of traditions from the past, such as the Peranakan Culture.”

Peach will continue to place the highest priority on safety in its flight operations, while leveraging its extensive domestic and international network to support new encounters and discoveries in Asia.

<Special Notes>

- The above fares are the minimum fares per seat for one-way flights.
- Ticketing fees, airport usage fees, etc. are charged separately.
- Checked baggage and seat selection charges apply.
- Booking fees are charged separately when tickets are booked at the Contact Center or airport counter.
- No fuel surcharges are levied on the customer.
- Fares change depending on seat availability, and the fare that is valid at the time of booking applies.
- Fares and usage conditions are subject to change and may be added to without notice.
- Application and approval by the relevant authorities is assumed.

***About the Airbus A321LR introduced by Peach**

The A321LR is a state-of-the-art aircraft manufactured by Airbus which Introduced on December 27, 2021 as Peach's medium-haul international aircraft. The seat pitch is 30 to 32 inches (approximately 76 to 81 cm) and has increased comfort on board such as equipping each seat with a USB port for charging. It has a cruising range of 7,400 km, and uses CFM's LEAP-1A engine and sharklets (large wing tip plates), achieving an approximately 20% improvement in fuel efficiency compared to the conventional aircraft (A320ceo).

The seat pitch of the seat in the photo is 32 inches (approx.81 cm)*
