

Simple with Self Service! “Peach BAGGAGE TAG KIOSK,” a Machine for Issuing Your Baggage Tags

- Smoother departure procedures at the airport -

- **Scheduled to be installed sequentially at Naha Airport, Narita Airport, Kansai Airport and New Chitose Airport from 11 September.**
- **Available for domestic departures**
- **When used together with the app check-in, the boarding process is even smoother**

Osaka, September 6, 2024 - Peach Aviation Limited ("Peach"; Representative Director and CEO: Kazunari Ohashi) announced today, September 6, the introduction of "Peach BAGGAGE TAG KIOSK," a baggage tag issuing machine. Operation will begin rolling out on September 11. Starting with Naha Airport, it will be installed at Narita Airport, Kansai Airport and New Chitose Airport, and the service is available on domestic flights departing from each airport.

“Peach BAGGAGE TAG KIOSK”

With the introduction of Peach BAGGAGE TAG KIOSK, customers who have already issued a boarding pass or checked in via the app will be able to issue their own baggage tags. The procedure is completed when you bring your baggage with the tag attached to the baggage drop-off location. This system supports smoother travel by allowing passengers to complete boarding procedures without having to stop by a staffed counter.

App check-in is a convenient way to issue boarding passes for domestic flights*. App check-in is available from 90 minutes to 35 minutes prior to scheduled departure time. You can use the service from anywhere, even while traveling to the airport.

For more information on the Peach BAGGAGE TAG KIOSK and app check-in, please see the next section.

Peach continually strives to put safety first and pursue basic quality while connecting countries and regions with each other. We aim to provide a carefree and comfortable way to travel and to always be by the side of the customers we serve.

*Not available for certain reservations.
